+1 206 887 8604

UX Designer and Researcher with experience in Frontend Development and Human Centered Design.

## Professional Experience

### Graduate Student UX Researcher

**SMART Technologies**, Seattle | Jan 2019 - Present

- Planned and conducted a usability study with 11 participants between 3-6 grades in three different sessions. The session was conducted in a classroom simulated environment with screen recording, live observing and post-session focus group discussion. ([Link](#))

### Lead Frontend Developer

**Listup**, Bangalore | June 2017 - Nov 2017

- Lead the development of the web app for the ecommerce platform while also developing the style guide in collaboration with the UI/UX designers and product manager.

### Frontend Developer Intern

**Stasis Labs**, Bangalore | Jan 2017 - May 2017

- Built internal analytics tool that helped understand how the doctors and the patients were using the web and the mobile app to help decision making.

## Projects

### Easy Reading Mode | [Project Link](#) | [Video Demo](#)

An open source Wordpress plugin

### Botzy | [Video Demo](#)

Played a lead role at a 24hrs hackathon in developing an interface that can be used to build a simple chatbot without coding.
