Objective

I strive to create beautiful user experience from conceptualization to implementation using my expertise in frontend-development and education in human-centered design to prototype and develop apps - both web and mobile - that are intuitive, robust and responsive. I constantly challenge myself to keep up with the latest design and development trends in the industry.

Professional Experience

Lead Frontend Developer

Listup, Bangalore | June 2017 - Nov 2017

Lead the development of the web app for the ecommerce platform for auctioning of used products. I developed the style guide in collaboration with the UI/UX designers and product manager and built reusable modules. Integrated feedback modules like Analytics and Error Tracking that helped understand user activity and take business decisions.

Frontend Developer Intern

Stasis Labs, Bangalore | Jan 2017 - May 2017

Built internal analytics that helped understand how the doctors and the patients were using the web and the mobile app to help better decision making. Also built a bot that would send product usage report to a slack channel.

Projects

Easy Reading Mode | Project Link | Video Demo

An open source Wordpress plugin to let visitors read a blog in a distraction-free full-screen mode.

Botzy | Video Demo

Played a lead role at a 24hrs hackathon in developing an interface that can be used to build a simple chatbot without coding knowledge.

English Teacher Volunteer
Hai Phong, Vietnam | 10 weeks

Education

University of Washington, Seattle
MS in Human-Centered Design
Class of 2020 (on-going)

DAIICT, Gandhinagar, India
B.Tech (Information & Communication Technology)
Class of 2017

UC Berkeley, California
Leadership Course
Class of Summer 2016

Select Skills

Design
Storyboarding, Personas, Wireframing, Prototyping, User Testing

Research
Interview, Survey, Statistical Analysis, Usability Testing

Tools
Sketch, Framer, Invision

Web Development
HTML, CSS, JavaScript, MongoDB, MySQL

Web Frameworks
ReactJS, React Native, Meteor JS, Material UI, BootStrap
